are more likely to  
experience violence  
at the hands of men.**

**All of this  
violence is unacceptable.**

*Violence can affect #AnyWomanAnywhere*

**More than 1 in 3 women experience violence in their lifetime - it can affect Any Woman, Anywhere.**

As my MSP I want you to work to end gender inequality and therefore violence against women.

- 1.** Read about how to prevent violence against women in Zero Tolerance's primary prevention briefing.
- 2.** Start Talking Gender – change one person's mind and help to change a culture.
- 3.** Implement Violence Prevention in your constituency using Zero Tolerance's short guide.
- 4.** Support prevention work across Scotland – support Equally Safe projects and funding of external primary prevention projects.
